CUSTOM ART FAQ&A

Process

Please carefully read this document, complete the form, and email it and your photos to thehuman@spoodlesdoodles.com

I'll confirm receipt, review form and photos, and let you know if additional reference material. I will coordinate with you understand your ideas and will send your cost. **Work begins when your payment has cleared.** Art is created by the following process a) sketching, b) inking, c) coloring, d) creating objects/settings, e) compositing elements, and f) adding text bubbles or captions. At various times you will have the opportunity to comment. Simple adaptations are included in your cost however based on what type of work I've completed and how "easy" it is to go back and alter parts, other charges may be incurred.

Cost

List prices are estimates. Standard Poodles are my specialty; purebred dogs are usually straightforward however non-canine/feline pets and mixed-breeds may cost more as each is very unique and takes additional time. Cost estimates are based on the quality and quantity of photos and details of information. Changes to art such as change of angle, complete change of color or markings, new settings, added objects or other pets will be billed separately.

Costs for alterations, art, setting, angle/position, color, etc. will be billed at final approval. After payment has cleared, your print and/or other products will be ordered. Costs do not include tax, shipping, rush charges or other fees.

What you get

Your price includes a low resolution digital file for on-line personal (email, social media, profile art, etc.) and one art print centered on an 11" x 17" sheet so you are able to cut it to your frame requirements. For an additional cost, custom art can be applied on products found in our ETSY store or, if possible, other special requests.

Timing

A typical project takes approximately 2-3 weeks for completed art and your digital file is available at that time; the print generally will arrive in 7-10 days. Other size prints and products in our shop usually arrive between 2-3 weeks based on vendor schedule and where it ships from. Times may vary during holiday season.

Non pets

Sorry, I don't do humans except the standard memorial custom piece found on the shop. At my discretion I might be able to customize the back of your human for that art however it depends on photo materials and will be an additional charge.

CUSTOM ART FAQ&A

YOUR PHOTOS ARE THE MOST IMPORTANT PART!

Most extra charges can be avoided by you sending excellent photo references.

To capture your pet's personality I study body shape and size and other details such as type of hair/fur, coloring, grooming style and standard collars, etc. If you are looking for your 'favorite' photo to be reproduced we won't be a good fit!

PRIMARY PHOTOS

- *Photos should be at your pet's eye level.*
Adults often take photos from above. Choose ones that are like the view of another pet or small child.
- Send a minimum of 8-10 good quality, uncropped photos that clearly show what your pet is doing or reacting to.
- Send as many as possible with pet's **entire** body from tip of nose to tip of tail and all four feet.
- Send multiple photos taken on different days that show the same trait (crossed paws, ball in mouth, etc.).
- For multiple pets, choose several photos showing how they consistently interact (spooning, back-to-back, etc.).

SECONDARY PHOTOS I'D LOVE TO SEE

- Ones taken from above or odd angles.
- Ones in dim or bright light that may be too close, too far away, blurry, in motion, and/or with body parts cropped out.
- Ones that are close-ups and sent for specific reasons (like a special marking or collar) should be explained. For example, "This is for you to see their collar/tags, specific markings, etc.".
- Be sure to send favorite locations (couch, crate, patio, counter surfing, in a cage, on a perch, etc.)

As seen below, if you can provide photos or links to actual products/brands you will see better results.
